NOTE 2. BASIS OF PREPARATION

Statement of compliance

These consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board under the historical cost convention, other than derivative contracts and certain financial instruments measured at fair value. These consolidated financial statements do not include all of the disclosures required by International Financial Reporting Standard ("IFRS") for annual financial statements and should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2020.

These consolidated financial statements were authorized for issuance by the Company's Board of Directors on August 4, 2021.

COVID-19 estimation uncertainty

In March 2020, the World Health Organization declared a global pandemic related to COVID-19. The impacts on global commerce have been, and are anticipated to continue to be, far-reaching. To date, there has been significant stock market volatility, significant volatility in commodity prices and foreign exchange markets, restrictions on the conduct of business and the global movement of people, and the availability of some goods has been constrained. There is ongoing uncertainty surrounding COVID-19 and the extent and duration of the impacts that it may have on the Company's ability to operate, prices for gold, on logistics and supply chains, on the Company's employees and on global financial markets.

NOTE 3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed in these consolidated financial statements are the same as those applied in the Company's audited consolidated financial statements for the year ended December 31, 2020.

(Amounts in millions of U.S. dollars, except share and per share amounts, unless otherwise noted)

NOTE 4. SIGNIFICANT JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting periods. Judgments, estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ materially from these estimates. The significant judgments, estimates and nature of assumptions made by management in applying the Company's accounting policies are consistent with those that applied to the audited consolidated financial statements as at and for the year ended December 31, 2020.

2019 Debt Facility

On July 30, 2019, the Company, through its wholly-owned subsidiary MML (as borrower), signed a Second Amended and Restated Credit Agreement ("SARCA") with the Bank of Montreal, BNP Paribas, ING Bank N.V., Dublin Branch, Société Générale and the Bank of Nova Scotia (the "Banks") in connection with a secured $335.0 debt facility (the "2019 Debt Facility"). The 2019 Debt Facility comprised a $185.0 term loan (the "2019 Term Facility") and a $150.0 revolving loan facility (the "2019 Revolving Facility"), bearing interest at a rate of LIBOR

+3%. In 2020, the Company fully repaid the 2019 Term Facility, and in the first quarter of 2021, the Company fully repaid the 2019 Revolving Facility.

2021 Revolving Facility

On March 30, 2021, the Company's subsidiary MML signed a Third Amended and Restated Credit Agreement (the "TARCA"), resulting in the refinancing of the 2019 Debt Facility, with the Banks in connection with a two-year secured $150.0 revolving debt facility (the "Revolving Facility"). The Revolving Facility is undrawn. Proceeds of the Revolving Facility may be used for general corporate and working capital purposes, including development expenditures and certain acquisitions, and can be used for letters of credit or funding of capital expenditures, in all cases subject to the conditions of the Revolving Facility.

The Revolving Facility allows the Company to make distributions to its shareholders in the aggregate amount of up to C$100.0, subject to conditions of the Revolving Facility. In addition, the Company is able to distribute the Muckahi Subsidiaries (as defined below) or the Muckahi System Rights (as defined below, including by way of a "spin out" transaction) if there is no default or event of default. A Muckahi Subsidiary is a direct or indirect subsidiary of the Company whose assets primarily comprise the rights to and interest in the design of the Muckahi Mining System or assets related thereto (the "Muckahi System Rights").

The Revolving Facility bears interest at a rate of LIBOR (subject to a zero floor) plus an applicable margin based on the net leverage ratio on any loan or letter of credit outstanding ranging from 2.75% to 3.75%. The current margin is 2.75%.

The Revolving Facility matures on March 30, 2023 with a step down in capacity by $25.0 on September 30, 2022, and again on December 31, 2022.

The Revolving Facility permits spending to facilitate the development of the Media Luna Project, the Muckahi Mining System, and other existing and future projects of the Company. The development expenditures are subject to the conditions of the Revolving Facility, including compliance with (i) financial covenants related to maintaining a net leverage ratio of 3.0, an interest coverage ratio of 3.0 and minimum liquidity of $50.0 and (ii) certain thresholds with respect to the quantum of development expenditures and the amount spent on the Muckahi Mining System. The Revolving Facility also permits investment in a Muckahi Subsidiary for the purpose of capital expenditures by such Muckahi Subsidiary in the Muckahi System Rights with the maximum aggregate amount of $30.0.

The Revolving Facility is secured by all of the assets of MML and secured guarantees of the Company and each of its other subsidiaries with a direct or indirect interest in the ELG Mine Complex and or the Media Luna Project.

As at June 30, 2021, the Company is in compliance with the financial and other covenants under the TARCA.

Transaction costs

As part of the refinanced Revolving Facility, $0.5 was capitalized as deferred finance charges in the first quarter of 2021 and added to the remaining unamortized portion. Unamortized deferred finance charges totalled $1.3 as at June 30, 2021 (December 31, 2020 - $1.2). During the six months ended June 30, 2021, amortization expense of $0.4 relating to the deferred finance charges was expensed on a straight-line basis.

(Amounts in millions of U.S. dollars, except share and per share amounts, unless otherwise noted)

Options

The SOP Plan authorizes the Board of Directors to grant Options to directors, officers, consultants or employees. The term of any option grant may not exceed five years. The SOP Plan also limits the aggregate number of securities that may be granted to a non-executive director in any given year under all share-based compensation arrangements of the Company.

All options outstanding as at June 30, 2021, are fully vested and exercisable. During the six months ended June 30, 2021, 15,393 common shares were issued (six months ended June 30, 2020 – 6,531) from 65,992 stock options being exercised (six months ended June 30, 2020 – 6,531). All stock options were exercised under the SOP Plan's cashless exercise option (six months ended June 30, 2020 - Nil).

The weighted average fair value of Options granted during the six months ended June 30, 2021 was C$7.04 (six months ended June 30, 2020 - C$7.75).

The following is a summary of the weighted average of assumptions used in the Black-Scholes option pricing model for Options granted during the six months ended June 30, 2021 and 2020:

The weighted average share price at the date of exercise of options exercised during the six months ended June 30, 2021 was C$16.63 (six months ended June 30, 2020 - C$19.37).

RSU Plan

Eligible participants under the RSU Plan include directors, officers, contractors and employees. Under the RSU Plan, qualified participants may elect to defer the receipt of all or any part of their entitlement to the RSUs.

Awards under the plan immediately vest upon grant. A liability is initially recognized for the fair value of the awards under the RSU Plan at the date of grant, and at each reporting date, changes in fair value are recognized in the Consolidated Statements of Operations and Comprehensive Income (Loss). As at June 30, 2021, the RSUs had a fair value of $1.3 (December 31, 2020 - $2.0). During the six months ended June 30, 2021, 44,381 RSUs were settled, resulting in 9,340 common shares issued and the remainder paid in cash (six months ended June 30, 2020 - 33,707 settled, resulting in 7,274 common shares issued and the remainder paid in cash). 165,269 RSUs, issued under the RSU Plan, are redeemable as at June 30, 2021 (December 31, 2020 - 131,730).

(Amounts in millions of U.S. dollars, except share and per share amounts, unless otherwise noted)

A summary of changes in the number of RSUs issued by the Company and the weighted average grant date fair values for the six months ended June 30, 2021 and the year ended December 31, 2020 is presented below:

ESU Plan

A portion of the fair value of the ERSUs and EPSUs is recognized each reporting period based on the pro-rated number of days the eligible employees are employed by the Company compared to the vesting period of each grant.

A liability is initially recognized for the fair value of the awards under the ESU Plan at the date of grant, and at each reporting date, changes in fair value are recognized in the Consolidated Statements of Operations and Comprehensive Income (Loss).

Employee restricted share units

ERSUs granted in the six months ended June 30, 2021 vest in January 2022, 2023 and 2024, and have an estimated weighted average unit fair value at the grant date of C$17.20 per unit at grant date. The fair value of ERSUs granted was determined using the closing price of the common shares on the Toronto Stock Exchange on the business day immediately prior to the grant date. As at June 30, 2021, the ERSUs had a fair value of $2.3 (December 31, 2020 - $4.2). None of the ERSUs, issued under the ESU Plan, were redeemable as at June 30, 2021 and December 31, 2020. During the six months ended June 30, 2021, 145,189 ERSU vested and 27,771 were forfeited due to employee turnover. Of the 145,189 units vested, 59,815 were settled as common shares and the remaining 85,374 units were paid in cash. During the six months ended June 30, 2020, 96,264 ERSU vested and 2,816 were forfeited due to employee turnover. Of the 96,264 units vested, 79,441 were settled as common shares and the remaining 16,823 units were paid in cash.

A summary of changes in the number of ERSUs issued by the Company and the weighted average grant date fair values for the six months ended June 30, 2021 and the year ended December 31, 2020 is presented below:

Employee performance share units

The EPSUs granted during the six months ended June 30, 2021 vest in January 2022, 2023 and 2024, and have an estimated weighted average unit fair value at the grant date of C$21.68. The fair value of EPSUs granted was calculated using a Monte Carlo simulation model. The Monte Carlo simulation model requires the use of subjective assumptions including expected share price volatility, risk-free interest rate, and estimated forfeiture rate. Historical and market data are considered in setting the assumptions. The EPSUs are earned over time and expensed accordingly and therefore, the estimated forfeiture rate is zero. At each reporting date, changes in fair value are recognized in the Consolidated Statements of Operations and Comprehensive Income (Loss). As at June 30, 2021, the EPSUs had a fair value of $3.3 (December 31, 2020 - $4.9). None of the EPSUs were redeemable as at June 30, 2021 and December 31, 2020. During the six months ended June 30, 2021, 150,923 EPSU vested and 66,870 were forfeited due to the application of a market adjustment factor and 41,654 due to employee turnover. Of the 150,923 units vested, 116,458 were settled as common shares and the remaining 34,465 units were paid in cash. During the six months ended June 30, 2020, 94,138 EPSU vested and 35,807 were forfeited due to the application of a market adjustment factor and 4,223 due to employee turnover. Of the 94,138 units vested, 34,609 were settled as common shares and the remaining 59,529 units were paid in cash.

A summary of changes in the number of EPSUs issued by the Company and the weighted average grant date fair value for the six months ended June 30, 2021 and for the year ended December 31, 2020 is presented below:

NOTE 13. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Company's financial instruments consist of cash and cash equivalents, short-term investments, trade receivables, accounts payable and accrued liabilities, derivative contracts and debt (excluding finance lease liabilities). Other than the derivative contracts, these financial instruments are recorded at amortized cost in the Consolidated Statements of Financial Position. Other than the debt, the fair values of these financial instruments approximate their carrying values due to their short-term maturity.

The derivative contracts are recorded at fair value and revalued through income at the end of each reporting period and are classified as Level 2 within the fair value hierarchy. The fair value of derivative contracts is estimated using a combination of quoted prices and market-derived inputs.

(Amounts in millions of U.S. dollars, except share and per share amounts, unless otherwise noted)

The carrying values and fair values of the Company's financial instruments as at June 30, 2021 and December 31, 2020 are as follows:

	As at June 30, 2021		As at December 31, 2020	
	Carrying Value	Fair Value	Carrying Value	Fair Value

Cash and cash equivalents	$ 196.0	$ 196.0	$ 174.1	$ 174.1

	$ 105.2	$ 105.2	$ 164.2	$ 161.2

The Company's financial risk exposures and the impact on the Company's financial instruments are summarized below:

(a) Credit risk:

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. All of the Company's cash and cash equivalents and trade receivables are held with reputable financial institutions as at June 30, 2021. The carrying amount of the Company's cash and cash equivalents and trade receivables represents the maximum exposure to credit risk as at June 30, 2021.

The Company is exposed to liquidity risk and credit risk with respect to its Value-Added Tax ("VAT") receivables if the Mexican tax authorities are unable or unwilling to make payments in a timely manner in accordance with the Company's monthly filings. Timing of collection of VAT receivables is uncertain as VAT refund procedures require a significant amount of information and follow-up. As at June 30, 2021, the Company's VAT receivables balance is $48.6 (December 31, 2020 - $45.4), and in respect of this balance, the Company expects to recover $42.8 over the next 12 months (December 31, 2020 - $39.9) and a further $5.8 thereafter (December 31, 2020 - $5.5). The VAT receivables balance is presented net of $3.9 for a provision for claims that are considered to be uncollectible (December 31, 2020 - $3.1). The Company's approach to managing liquidity risk with respect to its VAT receivables is to file its refund requests on a timely basis, monitor actual and projected collections of its VAT receivables, and cooperate with the Mexican tax authorities in providing information as required.

(b) Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company is exposed to liquidity risks in meeting its operating expenditures in instances where cash positions are unable to be maintained or appropriate financing is unavailable. The primary sources of funds available to the Company are cash flows generated by the ELG Mine Complex, its cash reserves and any available funds under the 2021 Revolving Facility.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2021, the Company had cash balances of $196.0 (December 31, 2020 - $174.1). The Company maintains its cash in fully liquid business accounts.

(Amounts in millions of U.S. dollars, except share and per share amounts, unless otherwise noted)

As at June 30, 2021, the $150.0 Revolving Facility remains undrawn (December 31, 2020 - $40.0 outstanding under the 2019 Debt Facility).

Cash flows that are expected to fund the operation of the ELG Mine Complex and settle current liabilities are dependent on, among other things, proceeds from gold sales.

The following tables detail the Company's expected remaining contractual cash flow requirements for its financial liabilities on repayment or maturity periods. The amounts presented are based on the contractual undiscounted cash flows and may not agree with the carrying amounts in the Consolidated Statements of Financial Position.

						As at June 30, 2021
		Up to 1 year		**1-5 years**		**Total**
Accounts payable and accrued liabilities	**$**	**105.2**	**$**	**-**	**$**	**105.2**

						As at December 31, 2020
		Up to 1 year		1-5 years		Total
Accounts payable and accrued liabilities	$	119.9	$	-	$	119.9
Derivative contracts		5.2		0.3		5.5
Debt, excluding lease liabilities (Note 8)		-		40.0		40.0
	$	125.1	$	40.3	$	165.4

(c) Market risk:

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and foreign exchange rates.

(i) Interest rate risk:

Interest rate risk is the risk that the future cash flows of a financial instrument or its fair value will fluctuate because of changes in market interest rates. The Revolving Facility (Note 8) bears interest at a rate of LIBOR plus an applicable margin based on the net leverage ratio on any loan or letter of credit outstanding. In February 2019, the Company entered into interest rate swap contracts for a fixed LIBOR of 2.492% on interest payments related to $150.0 of the term loan to hedge against unfavourable changes in interest rates. In the second quarter of 2021, the Company unwound its interest rate swap contracts for a realized loss of $1.0.

The Company does not consider its interest rate risk exposure to be significant as at June 30, 2021 with respect to its cash and cash equivalents.

(ii) Foreign currency risk:

The Company is exposed to financial risk related to foreign exchange rates. The Company operates in Canada and Mexico and has exposure to financial risk arising from fluctuations in foreign exchange rates. The Company expects the majority of its exploration, project development, operating and decommissioning expenditures associated with the Morelos Gold Property to be paid in Mexican pesos and U.S. dollars.

As at June 30, 2021, the Company had cash and cash equivalents, VAT receivables and accounts payable and accrued liabilities that are denominated in Mexican pesos and in Canadian dollars. A 10% appreciation or depreciation of the Mexican peso relative to the U.S. dollar would have resulted in a decrease or increase of $1.4 in the Company's net income from the translation of its financial instruments for the six months ended June 30, 2021. This excludes the impact of the Mexico peso forward contracts. A 10% appreciation or depreciation of the Canadian dollar relative to the U.S. dollar would have resulted in a decrease or increase of $0.2 in the Company's net income for the six months ended June 30, 2021.

In the first quarter of 2020, the Company entered into forward contracts for approximately 50% of its estimated Mexico peso expenditures until December 2020 or $234.0 at a weighted average rate of 19.70. In the second quarter of 2020, the Company extended the maturity dates of certain currency contracts due to settle in the second quarter of 2020, with a total notional value of $24.0, to future periods ranging from 7 to 11 months. There were no contracts remaining at June 30, 2021.

(iii) Commodity price risk:

Gold prices have fluctuated widely in recent years and there is no assurance that a profitable market will exist for gold produced by the Company. The Company entered into a series of zero-cost collars to hedge against changes in gold prices for a total of 8,000 ounces of gold per month until September 2021 for a total of 24,000 ounces. The remaining gold collar contracts have an average floor price of $1,400 per ounce and an average ceiling of $2,680 per ounce.

As at June 30, 2021, a 10% change in the gold price would result in no decrease or increase (using the spot rate as at June 30, 2021 of $1,778) in the Company's net income for the six months ended June 30, 2021 relating to the zero-cost collar hedges.

NOTE 14. COMMITMENTS

Purchase commitments

As at June 30, 2021, the total purchase commitments for the ELG Mine Complex and the Media Luna deposit amounted to $70.4, which are expected to settle over the next 12 months.

ELG royalties

Production revenue from certain concessions is subject to a 2.5% royalty payable to the Mexican Geological Survey agency. The royalty is accrued based on revenue and is payable on a quarterly basis. In the six months ended June 30, 2021, the Company paid $12.3 for the 2.5% royalty relating to the fourth quarter of 2020 and first quarter of 2021. As at June 30, 2021, the Company has accrued $5.2 for the 2.5% royalty relating to the second quarter of 2021 (December 31, 2020 - $6.3).

The Company is subject to a mining tax of 7.5% on taxable earnings before the deduction of taxes, interest, depreciation and amortization, and a royalty of 0.5% on sales of gold, silver and platinum. Both the mining tax and royalty are payable to the Servicio de Administración Tributaria on an annual basis in the following year. The mining tax is considered an income tax for IFRS purposes. In March 2021, the Company paid $34.5 relating to amounts due for 2020 for the 7.5% and 0.5% royalties (paid in March 2020 - $17.5). As at June 30, 2021, the Company has $21.8 and $2.2 accrued for the 7.5% and 0.5% royalties to be paid in March 2022, respectively (December 31, 2020 - $30.7 and $3.8 accrued for the 7.5% and 0.5% royalties to be paid in March 2021).

NOTE 15. TRANSACTIONS WITH RELATED PARTIES

In June 2018, Fred Stanford, the Company's President and Chief Executive Officer ("CEO") at that time, sold, assigned and transferred to the Company (the "Assignment"), with the exception of trademarks (including the name "Muckahi"), his entire right, title and interest in a proprietary mining system (the "Mining System", which is sometimes referred to as "Muckahi") for use in underground mines for nominal consideration. The Company has granted an irrevocable license (the "Mining System License"), in any intellectual property associated with the Mining System, including any improvements, to Muckahi Inc., an entity controlled by Fred Stanford. The Mining System License remains in place in perpetuity. The Company owns the intellectual property associated with the Mining System. Any improvement in the Mining System, regardless of which party created the improvement, is owned by the Company; Muckahi Inc. is entitled to use such improvement under the terms of the Mining System License.

The Mining System License restricted Muckahi Inc. from making use of the Mining System License during Mr. Stanford's tenure as CEO. On June 17, 2020, the Mining System License was amended such that Muckahi Inc. may not make use of the Mining System License while Mr. Stanford, at the time, Executive Chair of the Board, held any position with the Company as employee, officer or director. Mr. Stanford did not stand for re-election at the Company's AGM in June 2021. Immediately following the AGM, Mr. Stanford no longer held any position with the Company and effective June 29, 2021, Muckahi Inc. is permitted to use the License.

In August 2018, the Company and Muckahi Inc. entered into a trademark agreement that grants to the Company the right to use the name "Muckahi" on a royalty free basis. The term of the trademark agreement is perpetual; however, Muckahi Inc. may terminate the trademark agreement at any time by giving the Company 60 days prior notice.
